Comentarist: Thus ends this horrible tale of
horror and creepyness because, unbeknownst to
the mourners, his dead wife was looking. Be wary,
my friends for pherhaps in your way home someone
will pass by you and you won't know, but he could
be from outer space. God help us... in the future.

Trumpets trumpets everywhere
the three men got out of the nerd's basement I

hella Jeff left Momey in the gground and gor
back slowly while all of them were making a
triaaangel with the squarerol in the center
ans they looked at each other with those eyes
of frigging ire
there was tension in the atmosfere as they
huelded theri weapons

Missing ending.

TG: uh hi there

TG: this is dave

TG: i know i know you want to see the rest of the novel and not me boring-ranting you about this stuff but shut up because i am the author

TG: yeah thats me

TG: so what I wanted to tell you guys is some shitass mistake i made while writing this

TG: you see after finishing the writing i got so drunk

TG: because thats what you do when you make novels you get drunk all the time

TG: anyway yeah it was me alcohol a lighter and the manuscript so the last part is gone

TG: i didn't have anymore copies because that's not how real men are supposed to write

TG: why did they let me do that

TG: i mean it was obvious that joke was not going to come out alright

TG: anyway the original end was supposed to have some crazy shit like space battles dragons and stuff

TG: but we will never be able to see that now sorry

TG: however you must keep your tits calmed and properly restrained because as it happens the day after it i found an alternate ending next to a garbage can

TG: so it wasn't so bad and i said fuck it i just want this hangover to go away

TG: then lets see the alternate end that now is the real one i suppose...
